

Dear Guests and Participants,

It is my honor to welcome you to the Russian Business Forum on Cost Engineering organized by PMSOFT and the Greater Russia Chapter of AACE International.

It is now more than ever the right time to discuss about best practices, international standards, localization versus globalization, professional services and how information technology give you a Competitive Advantage.

Nomitech is a leading niche software company specializing in Cost Estimating solutions. Our founders are engineers with real life industry experience and we deliver practical, innovative, state of the art cost estimating software which is rapidly becoming the future standard for estimating.

Our Cost Estimating solution, **CostOS** is specifically designed for companies that want to increase their competitiveness by responding to modern estimating challenges more quickly, with less effort, more accuracy, less risk, and with an increased level of confidence.

CostOS allow multiple estimators to work on the same estimate at the same time and from multiple locations real time, but collaboration is also supported in terms of interacting with other core business solutions. With its own API (Application Programme Interface), synchronized integration with Project Planning solutions such as Primavera P6 allows the estimators and planners to fully co-operate, whilst integration with Cost Management, Business Intelligence and ERP solutions ensures continuing control throughout the delivery stage.

Our company Nomitech is present in over 50 countries and across all 5 continents. We have established a strong and successful partnership with PMSOFT for the promotion and support of CostOS in the Russian market. PMSOFT has proved a valuable partner with a deep knowledge in the areas of Project Management, Cost Estimating and Cost management, among others.

During the Forum, **PMSOFT professionals** will be at your disposal for discussing with you and presenting how you can move **FORWARD** by using CostOS 6, the most complete cost estimating software in the WORLD.

On behalf of the Nomitech team and our partners, I would like to wish you a fine Forum.

Tolis Chatzisyneon

CEO, NOMITECH
